FEATURES

PDF4NET is a .NET library for generating and importing PDF documents on the fly from any .NET application. The library does not rely on any Adobe products for creating and importing PDF files. It hides the complex structure of PDF files behind a simple object model that allows creation of complex PDF files or import of existing PDF files with a few lines of code.

The PDF4NET library can use either a grid based layout approach allowing precise positioning of content on document's pages or a flow based layout making the generation of complex documents a breeze. The final PDF file is compressed, making the library appropriate for web applications. The library can be used from WinForms, ASP.NET, WPF, UWP, .NET Core, Mac, iOS and Android applications without any restrictions, the source code being fully portable between platforms. The library is written entirely in C#, being 100% managed.

The PDF4NET library is licensed per developer and can be distributed ROYALTY FREE, reducing your project costs.

The main features of PDF4NET library are outlined below:

SUPPORTED PLATFORMS

• .NET 4.x	Yes
Windows Forms	Yes
• Xamarin.Mac	Yes
ASP.NET Webforms and MVC	Yes
Console applications	Yes
Windows services	Yes
• Mono	Yes
• WPF 4.x	Yes
• Xamarin.iOS	Yes
Xamarin.Android	Yes
• Xamarin.Forms	Yes
Universal Windows Platform	Yes
• .NET Core 2.x/3.x	Yes
.NET Standard	Yes
• .NET 5	Yes

DOCUMENT FEATURES

Create and load PDF documents from files and streams	Yes
Grid layout and/or flow layout modes	Yes
• Save PDF files in PDF/A-1B, PDF/A-2 B/U, PDF/A-3 B/U format	Yes
Save PDF files in PDF/UA-1 format	Yes
Save PDF files to disk and streams	Yes
PDF structure compression	Yes
Document information and custom properties	Yes
Document viewer preferences and display modes	Yes
XMP metadata	Yes
Document file attachments	Yes
Document level Javascripts and actions	Yes
Document outline (bookmarks)	Yes
Create CAD and geospatial enabled PDF files	Yes
Add, remove and read Bates numbers	Yes
Add and remove PDF pages	Yes
• Page boxes - media box, crop box, art box, trim box and bleed box	Yes
Page labeling ranges (page numbering)	Yes
Extract pages from external PDF files	Yes
Append PDF pages	Yes
Split PDF files into pages	Yes
Document incremental updates	Yes
Partial document loading and saving	Yes

LOGICAL STRUCTURE & TAGGED PDF & ACCESSIBILITY

Logical document structure	
	Yes
Tagged PDF	Yes
Structure tree and structure elements	Yes
• ID map	Yes
Role map	Yes
Structure element attributes	Yes
Attribute classes	Yes
PDF/UA-1	Yes
Automatic tagging of flow documents	Yes
Extraction of page content with associated logical structure information	Yes
Extraction of page content with associated logical structure information	163
FLOW DOCUMENT FEATURES	
Mixed formatted text	Yes
Superscript/subscript text	Yes
• Images	Yes
• Form XObjects	Yes
Annotations	Yes
• Tables	Yes
Headers and footers	Yes
Table of contents	Yes
Automatic tagging for accessibility	Yes
Before/After draw events for flow content	Yes
SECURITY	
User and owner passwords	Yes
Document access rights	Yes
40 bit and 128 bit RC4 encryption	Yes
128 bit and 256 bit AES encryption	Yes
Content redaction	Yes
Disable text copy/paste	Yes
DIGITAL SIGNATURES	
Approval and certifying digital signatures with X509 certificates	Yes
Basic CMS and PAdES digital signatures with SHA256 / SHA384 / SHA512	Yes
Signature timestamps	Yes
• OCSD and CDL information included in digital eigentures	
OCSP and CRL information included in digital signatures	Yes
Document security store	
	Yes
Document security store	Yes Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures 	Yes Yes Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) 	Yes Yes Yes Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures 	Yes Yes Yes Yes Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files 	Yes Yes Yes Yes Yes Yes Yes Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks 	Yes Yes Yes Yes Yes Yes Yes Yes Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files 	Yes Yes Yes Yes Yes Yes Yes Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks 	Yes Yes Yes Yes Yes Yes Yes Yes Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks Extract the certificate from digital signatures 	Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks Extract the certificate from digital signatures Save the signed copy of a PDF document 	Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks Extract the certificate from digital signatures Save the signed copy of a PDF document 	Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks Extract the certificate from digital signatures Save the signed copy of a PDF document GRAPHICS FEATURES	Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks Extract the certificate from digital signatures Save the signed copy of a PDF document GRAPHICS FEATURES Grid layout for fixed content positioning Flow layout for relative content positioning 	Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks Extract the certificate from digital signatures Save the signed copy of a PDF document GRAPHICS FEATURES Grid layout for fixed content positioning Flow layout for relative content positioning All PDF color spaces: DeviceRGB, DeviceCMYK, DeviceGray, Indexed, CalGray, CalRGB, Lab, ICC, Separation, 	Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks Extract the certificate from digital signatures Save the signed copy of a PDF document GRAPHICS FEATURES Grid layout for fixed content positioning Flow layout for relative content positioning All PDF color spaces: DeviceRGB, DeviceCMYK, DeviceGray, Indexed, CalGray, CalRGB, Lab, ICC, Separation, DeviceN and PANTONE colors 	Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks Extract the certificate from digital signatures Save the signed copy of a PDF document GRAPHICS FEATURES Grid layout for fixed content positioning Flow layout for relative content positioning All PDF color spaces: DeviceRGB, DeviceCMYK, DeviceGray, Indexed, CalGray, CalRGB, Lab, ICC, Separation, DeviceN and PANTONE colors Pen and brush objects for stroking and filling operations 	Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks Extract the certificate from digital signatures Save the signed copy of a PDF document GRAPHICS FEATURES Grid layout for fixed content positioning Flow layout for relative content positioning All PDF color spaces: DeviceRGB, DeviceCMYK, DeviceGray, Indexed, CalGray, CalRGB, Lab, ICC, Separation, DeviceN and PANTONE colors Pen and brush objects for stroking and filling operations Hatch style brushes 	Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks Extract the certificate from digital signatures Save the signed copy of a PDF document GRAPHICS FEATURES Grid layout for fixed content positioning Flow layout for relative content positioning All PDF color spaces: DeviceRGB, DeviceCMYK, DeviceGray, Indexed, CalGray, CalRGB, Lab, ICC, Separation, DeviceN and PANTONE colors Pen and brush objects for stroking and filling operations 	Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks Extract the certificate from digital signatures Save the signed copy of a PDF document GRAPHICS FEATURES Grid layout for fixed content positioning Flow layout for relative content positioning All PDF color spaces: DeviceRGB, DeviceCMYK, DeviceGray, Indexed, CalGray, CalRGB, Lab, ICC, Separation, DeviceN and PANTONE colors Pen and brush objects for stroking and filling operations Hatch style brushes 	Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks Extract the certificate from digital signatures Save the signed copy of a PDF document GRAPHICS FEATURES Grid layout for fixed content positioning Flow layout for relative content positioning All PDF color spaces: DeviceRGB, DeviceCMYK, DeviceGray, Indexed, CalGray, CalRGB, Lab, ICC, Separation, DeviceN and PANTONE colors Pen and brush objects for stroking and filling operations Hatch style brushes Graphics primitives: lines, ellipses, rectangles, rounded rectangles, arcs, pies, chords, Bezier curves, paths 	Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks Extract the certificate from digital signatures Save the signed copy of a PDF document GRAPHICS FEATURES Grid layout for fixed content positioning Flow layout for relative content positioning All PDF color spaces: DeviceRGB, DeviceCMYK, DeviceGray, Indexed, CalGray, CalRGB, Lab, ICC, Separation, DeviceN and PANTONE colors Pen and brush objects for stroking and filling operations Hatch style brushes Graphics primitives: lines, ellipses, rectangles, rounded rectangles, arcs, pies, chords, Bezier curves, paths Clipping paths 	Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks Extract the certificate from digital signatures Save the signed copy of a PDF document GRAPHICS FEATURES Grid layout for fixed content positioning Flow layout for relative content positioning All PDF color spaces: DeviceRGB, DeviceCMYK, DeviceGray, Indexed, CalGray, CalRGB, Lab, ICC, Separation, DeviceN and PANTONE colors Pen and brush objects for stroking and filling operations Hatch style brushes Graphics primitives: lines, ellipses, rectangles, rounded rectangles, arcs, pies, chords, Bezier curves, paths Clipping paths Images (see Images section) and form XObjects Transparency groups 	Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks Extract the certificate from digital signatures Save the signed copy of a PDF document GRAPHICS FEATURES Grid layout for fixed content positioning Flow layout for relative content positioning All PDF color spaces: DeviceRGB, DeviceCMYK, DeviceGray, Indexed, CalGray, CalRGB, Lab, ICC, Separation, DeviceN and PANTONE colors Pen and brush objects for stroking and filling operations Hatch style brushes Graphics primitives: lines, ellipses, rectangles, rounded rectangles, arcs, pies, chords, Bezier curves, paths Clipping paths Images (see Images section) and form XObjects Transparency groups Single line and muiti line text with vertical and horizontal aligment, including justified text 	Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks Extract the certificate from digital signatures Save the signed copy of a PDF document GRAPHICS FEATURES Grid layout for fixed content positioning Flow layout for relative content positioning All PDF color spaces: DeviceRGB, DeviceCMYK, DeviceGray, Indexed, CalGray, CalRGB, Lab, ICC, Separation, DeviceN and PANTONE colors Pen and brush objects for stroking and filling operations Hatch style brushes Graphics primitives: lines, ellipses, rectangles, rounded rectangles, arcs, pies, chords, Bezier curves, paths Clipping paths Images (see Images section) and form XObjects Transparency groups Single line and multi line text with vertical and horizontal aligment, including justified text Extended graphics states with support for fill and stroke alpha, blend modes and overprinting 	Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks Extract the certificate from digital signatures Save the signed copy of a PDF document GRAPHICS FEATURES Grid layout for fixed content positioning Flow layout for relative content positioning All PDF color spaces: DeviceRGB, DeviceCMYK, DeviceGray, Indexed, CalGray, CalRGB, Lab, ICC, Separation, DeviceN and PANTONE colors Pen and brush objects for stroking and filling operations Hatch style brushes Graphics primitives: lines, ellipses, rectangles, rounded rectangles, arcs, pies, chords, Bezier curves, paths Clipping paths Images (see Images section) and form XObjects Transparency groups Single line and multi line text with vertical and horizontal aligment, including justified text Extended graphics states with support for fill and stroke alpha, blend modes and overprinting Affine transformations: multiply, translate, rotate and scale 	Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks Extract the certificate from digital signatures Save the signed copy of a PDF document GRAPHICS FEATURES Grid layout for fixed content positioning Flow layout for relative content positioning All PDF color spaces: DeviceRGB, DeviceCMYK, DeviceGray, Indexed, CalGray, CalRGB, Lab, ICC, Separation, DeviceN and PANTONE colors Pen and brush objects for stroking and filling operations Hatch style brushes Graphics primitives: lines, ellipses, rectangles, rounded rectangles, arcs, pies, chords, Bezier curves, paths Clipping paths Images (see Images section) and form XObjects Transparency groups Single line and multi line text with vertical and horizontal aligment, including justified text Extended graphics states with support for fill and stroke alpha, blend modes and overprinting 	Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks Extract the certificate from digital signatures Save the signed copy of a PDF document GRAPHICS FEATURES Grid layout for fixed content positioning Flow layout for relative content positioning All PDF color spaces: DeviceRGB, DeviceCMYK, DeviceGray, Indexed, CalGray, CalRGB, Lab, ICC, Separation, DeviceN and PANTONE colors Pen and brush objects for stroking and filling operations Hatch style brushes Graphics primitives: lines, ellipses, rectangles, rounded rectangles, arcs, pies, chords, Bezier curves, paths Clipping paths Images (see Images section) and form XObjects Transparency groups Single line and multi line text with vertical and horizontal aligment, including justified text Extended graphics states with support for fill and stroke alpha, blend modes and overprinting Affine transformations: multiply, translate, rotate and scale 	Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks Extract the certificate from digital signatures Save the signed copy of a PDF document GRAPHICS FEATURES Grid layout for fixed content positioning Flow layout for relative content positioning All PDF color spaces: DeviceRGB, DeviceCMYK, DeviceGray, Indexed, CalGray, CalRGB, Lab, ICC, Separation, DeviceN and PANTONE colors Pen and brush objects for stroking and filling operations Hatch style brushes Graphics primitives: lines, ellipses, rectangles, rounded rectangles, arcs, pies, chords, Bezier curves, paths Clipping paths Images (see Images section) and form XObjects Transparency groups Single line and multi line text with vertical and horizontal aligment, including justified text Extended graphics states with support for fill and stroke alpha, blend modes and overprinting Affine transformations: multiply, translate, rotate and scale Shadings - function, axial and radial 	Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks Extract the certificate from digital signatures Save the signed copy of a PDF document GRAPHICS FEATURES Grid layout for fixed content positioning Flow layout for relative content positioning All PDF color spaces: DeviceRGB, DeviceCMYK, DeviceGray, Indexed, CalGray, CalRGB, Lab, ICC, Separation, DeviceN and PANTONE colors Pen and brush objects for stroking and filling operations Hatch style brushes Graphics primitives: lines, ellipses, rectangles, rounded rectangles, arcs, pies, chords, Bezier curves, paths Clipping paths Images (see Images section) and form XObjects Transparency groups Single line and multi line text with vertical and horizontal aligment, including justified text Extended graphics states with support for fill and stroke alpha, blend modes and overprinting Affine transformations: multiply, translate, rotate and scale Shadings - function, axial and radial Patterns - colored, uncolored and shading Optional content (layers) with support for custom display trees, multipage and mixed layers 	Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks Extract the certificate from digital signatures Save the signed copy of a PDF document GRAPHICS FEATURES Grid layout for fixed content positioning Flow layout for relative content positioning All PDF color spaces: DeviceRGB, DeviceCMYK, DeviceGray, Indexed, CalGray, CalRGB, Lab, ICC, Separation, DeviceN and PANTONE colors Pen and brush objects for stroking and filling operations Hatch style brushes Graphics primitives: lines, ellipses, rectangles, rounded rectangles, arcs, pies, chords, Bezier curves, paths Clipping paths Images (see Images section) and form XObjects Transparency groups Single line and multi line text with vertical and horizontal aligment, including justified text Extended graphics states with support for fill and stroke alpha, blend modes and overprinting Affine transformations: multiply, translate, rotate and scale Shadings - function, axial and radial Patterns - colored, uncolored and shading Optional content (layers) with support for custom display trees, multipage and mixed layers Barcodes (see Barcodes section) 	Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks Extract the certificate from digital signatures Save the signed copy of a PDF document GRAPHICS FEATURES Grid layout for fixed content positioning Flow layout for relative content positioning All PDF color spaces: DeviceRGB, DeviceCMYK, DeviceGray, Indexed, CalGray, CalRGB, Lab, ICC, Separation, DeviceN and PANTONE colors Pen and brush objects for stroking and filling operations Hatch style brushes Graphics primitives: lines, ellipses, rectangles, rounded rectangles, arcs, pies, chords, Bezier curves, paths Clipping paths Images (see Images section) and form XObjects Transparency groups Single line and multi line text with vertical and horizontal aligment, including justified text Extended graphics states with support for fill and stroke alpha, blend modes and overprinting Affine transformations: multiply, translate, rotate and scale Shadings - function, axial and radial Patterns - colored, uncolored and shading Optional content (layers) with support for custom display trees, multipage and mixed layers Barcodes (see Barcodes section) Drawing of external page content (page imposition) 	Yes
 Document security store Document timestamps LTV (Long Term Validation) enabled digital signatures Support for hardware signature tokens/smartcards (Windows, WPF, Mac) Externally computed signatures Load digital signatures from signed PDF files Decode existing signatures into basic ASN.1 blocks Extract the certificate from digital signatures Save the signed copy of a PDF document GRAPHICS FEATURES Grid layout for fixed content positioning Flow layout for relative content positioning All PDF color spaces: DeviceRGB, DeviceCMYK, DeviceGray, Indexed, CalGray, CalRGB, Lab, ICC, Separation, DeviceN and PANTONE colors Pen and brush objects for stroking and filling operations Hatch style brushes Graphics primitives: lines, ellipses, rectangles, rounded rectangles, arcs, pies, chords, Bezier curves, paths Clipping paths Images (see Images section) and form XObjects Transparency groups Single line and multi line text with vertical and horizontal aligment, including justified text Extended graphics states with support for fill and stroke alpha, blend modes and overprinting Affine transformations: multiply, translate, rotate and scale Shadings - function, axial and radial Patterns - colored, uncolored and shading Optional content (layers) with support for custom display trees, multipage and mixed layers Barcodes (see Barcodes section) 	Yes

Tables (simple and composite cells, column spans, row spans, borders)	Yes
FONTS	
Standard PDF fonts, Western and CJK	Yes
• Type1 fonts	Yes
• Type3 fonts	Yes
Ansi and Unicode TrueType fonts with support for font subsetting	Yes
Disable text copy/paste for Unicode TrueType fonts	Yes
IMAGES	
Load images from files and streams	Yes
Bmp, Png, Gif, Jpeg, Jpeg2000, Tiff and Raw images	Yes
Automatic image type detection Fytre large INFC images	Yes Yes
Extra large JPEG imagesExtra large TIFF images (24bpp and 32bpp, uncompressed, zip, lzw)	Yes
Create images from System. Drawing. Bitmap (WinForms) (BMP, GIF, PNG, TIFF, JPG)	Yes
Native support for TIFF (grayscale, RGB and CMYK), JPEG, PNG and RAW images	Yes
• TIFF to PDF conversion with CCITT G4 compression for B/W images	Yes
Image masks: color masks, stencil mask and soft masks	Yes
Alternate images for printing	Yes
SVG to PDF conversion	Yes
BARCODES	
Built in vector barcode engine, no barcode images or barcode fonts	Yes
Unidimensional barcodes:	Yes
- Generic barcodes: Codabar, Code 11, Code 25, Code 25 Interleaved,	Yes
Code 39, Code 39 Extended, Code 93, Code 93 Extended, Code 128 A, Code 128 B, Code 128 C, COOP 25, Matrix 25, MSI/Plessey	
- Pharmaceutical barcodes: Code 32, Pharmacode,	Yes
PZN (Pharma-Zentral-Nummer)	
- EAN/UPC barcodes: EAN 128, EAN-13, EAN-8, ISBN, ISMN, ISSN,	Yes
JAN-13, UPC-A, UPC-E	
- Postal and transportation barcodes: FedEx Ground 96, IATA 25,	Yes
Identcode, Leitcode, KIX, Planet, PostNet, RM4SCC, SCC-14,	
SingaporePost, SSCC-18, USPS FIM, USPS Horizontal, USPS PIC • Bidimensional barcodes:	Yes
- DataMatrix, QR, PDF417, Micro PDF417, Codablock F, Code 16K	Yes
PDF ANNOTATIONS	
a Add adit and ramous DDE annotations	Vac
 Add, edit and remove PDF annotations Standard and custom appearance for annotations 	Yes Yes
• Flatten annotations	Yes
Supported annotations:	Yes
- Text (sticky notes) annotations	Yes
- Rubber stamp annotations	Yes
- Square and circle annotations	Yes
- File attachment annotations - Link annotations (hyperlinks)	Yes Yes
- Line annotations	Yes
- Ink annotations	Yes
- Polygon and polyline annotations	Yes
- Text markup annotations: highlight, underline, strikeout, squiggly	Yes
- Free text (typewritter) annotations	Yes
- Sound annotations - Movie annotations	Yes Yes
- Rich media (Flash) annotations	Yes
- Redaction annotations	Yes
- 3D annotations with support for: views, projections, lighting schemes,	Yes
cross sections, backgrounds and animations	
PDF FORMS (Acrobat forms)	
Create, load and save PDF forms	Yes
Add, edit, remove and rename form fields Current for tout how fields, combo how fields, list how fields.	Yes
 Support for text box fields, combo box fields, list box fields, push button fields, check box fields, radio button fields, signature fields 	Yes
Read/Write (fill) form fields	Yes
Create custom appearances for field widgets	Yes
Flatten form fields	Yes

Form actions (see PDF actions)	Yes
PDF ACTIONS	
 Add, edit and remove PDF actions Set actions at document level, page level, annotation level and form field level Supported actions: GoTo actions - go to destinations in current PDF file Remote GoTo actions - go to destinations in external PDF files GoTo 3D view actions - activate a specific view in a 3D annotation Lauch actions - launch executables and files URI actions - go to a web based destination Named actions - predefined PDF actions Javascript actions - execute Javascript code Submit form actions - submit form data to a server Reset form actions - reset form fields to default values Hide actions - show or hide form fields 	Yes
PDF FUNCTIONS	
 Sample based functions (Type 0) Exponential functions (Type 2) Stitching functions (Type 3) Postscript calculator functions (Type 4) 	Yes Yes Yes Yes
TEXT SEARCH	
Search text in PDF pages with support for regular search, case sensitive search, whole word search and regular expression search	Yes
CONTENT EXTRACTION	
 Extract text with position information at fragment level and glyph level Extract text as words with position information at word level and glyph level Extract text as lines with position information at line level and glyph level Extract text and words from user defined regions Extract images including image information such as: image size in pixels, bits per pixel, colorspace, image position on the PDF page, image size on the PDF page, image horizontal and vertical resolution Extract page content as a sequence of path, text, image and shading objects Extract optional content groups as vector drawings 	Yes Yes Yes Yes Yes Yes
Extract page content as vector drawings (including annotations and form fields)	Yes
CONTENT TRANSFORMATION	
 Convert page content to RGB Convert page content to CMYK Convert page content to Grayscale Convert images to Grayscale Replace page images Remove page Images 	Yes Yes Yes Yes Yes Yes
CONTENT REDACTION	
 Text redaction Image redaction Redaction annotations 	Yes Yes Yes
PDF PORTFOLIOS	
 Create and load PDF portfolios Define portfolio attributes and define sort order for portfolio items Add and remove portfolio items Organize portfolio items into folders 	Yes Yes Yes Yes
LOW LEVEL COS API	
 Add, edit and remove COS objects Supported COS objects: strings, numbers, names, booleans, nulls, arrays, dictionaries and streams 	Yes Yes

Yes

• Form actions (see PDF actions)

•	Per c	leveloper	licensing	with	royalty	free	distribution
